

1 Motors and drive technology

- 1.1 Electrical drives (linear drives, servo drives)
- 1.2 Pneumatic drives

2 Control technology**3** Sensor technology**4** Machine vision

- 4.1 Cameras (2D, 3D)
- 4.2 Vision systems

5 Handling technology

- 5.1 Gripper
- 5.2 Handling systems
- 5.3 Robotics

6 Industrial software and communication

- 6.1 Data collection, preparation, processing
- 6.2 Engineering tools / project planning software
- 6.3 Simulation software

7 Machine parts, components, accessories

- 7.1 Tools (e.g. Compressing tools / preforming tools)
- 7.2 Conveyors, conveyor elements
- 7.3 Forming shoulders
- 7.4 Handles, feets
- 7.5 Pumps
- 7.6 Rollers (not engraved)
- 7.7 Switches
- 7.8 Others

8 Peripheral equipment

- 8.1 Cabinets and cabinet systems
- 8.2 Cooling units
- 8.3 Heaters
- 8.4 Compressors

9 Complete automation systems for

- 9.1 Packaging industry
- 9.2 Food processing and beverage industry
- 9.3 Confectionery and bakery industry
- 9.4 Pharmaceutical and cosmetics industry
- 9.5 Industrial and consumer goods industry

10 Components / auxiliary for packaging

- 10.1 Corrosion protecting materials
- 10.2 Inks
- 10.3 Lacquers
- 10.4 Adhesives
- 10.5 Sealing materials
- 10.6 Valves
- 10.7 Others
